◇ $LABUBU INU Whitepaper

The memecoin that wasn't supposed to happen — but did.

◈ What is $LABUBU INU?

$LABUBU INU is a **post-ironic memecoin** created without a roadmap, without a team, and without expectations.
It exists simply because it can.

🧸 Inspired by the iconic **Labubu toy**, this is not a copy —
it's a **parody**, an **alternate-universe tribute**,
a creature born from the chaos of crypto culture.

◈ Why was it created?

🛠 There was **no master plan**.
📊 No pitch deck.
📢 No influencers.

Just a desire to make something that **isn't pretending to be more than it is**.

💸 Around **$500** was spent — manually, modestly, sincerely — on:

- 🧃 liquidity

- 🔒 lockers

- 🌐 a website

- 🎨 a logo

- 📦 NFT infra

- ☻ a few bots

- 😂 and some laughs

🧰 Everything was built **by hand**, under a tight budget,
which means — yes — **things sometimes work a little through the ass**.
But they work.

And if it ever makes sense to fix or upgrade something — it'll be done.
No rush. No fake polish. No bait.

Just real life and real vibes.

◈ Tokenomics

⬚ **Total Supply:** 1,000,000,000,000 $LABUBU INU
⑤ **Taxes:** 0%
⎔ **Locked Liquidity:** 50% frozen via **Mudra Locker** (1–10 years):

- 🔒 100B — Trust Lock (**10 years**)

- 🔒 100B — Strategic Lock (**5 years**)

- 🔒 100B — Growth Reserve (**3 years**)

- 🔒 100B — Listing Reserve (**2 years**)

- 🔒 100B — Community & Airdrop (**1 year**)

📑 **Contract:**
0x8ba41ed9f9d83738388c4ebbcc4f5cf0c6960a99

⊘ No dev wallet.
⊘ No presale.
⊘ No VC backing.
⊘ No fake community.

◈ Future?

♂ We don't know.

LABUBU INU doesn't pretend to be building the next anything.
If people join — cool.
If not — also cool.
It'll exist either way.

    If liquidity needs to be added — we'll add.
If not — we won't.

No hype machine. No grand plan.
Just a token that exists.

◈ ML43?

◎ Somewhere along the way, the **ML43 universe** was born.
LABUBU became its **prophet** — its accidental messenger.

We don't know where this goes either.
But it's **moving**, and that's **enough**.

◈ Closing Words

$LABUBU INU is **not a project**.
It's a **presence**.
A **feeling**.
A **flag in the fog**.

◉ While others chase utility, hype, and VC crumbs —
we chose to deploy, just because.

And sometimes, **that's enough**.

> — *from someone who just wanted to see it exist.*

◉ P.S.

We say **"we"** because everyone does.
But truth is:
"we" is just one person
and a bunch of bots commenting under crypto posts on **X**.

There is **no team**.
And honestly, **we're not even hoping one will appear**.
But if it ever does — we won't mind.
There's **room here**.
And the **vibe's right**. 🏞️
